

Advanced To Exhibit Its Intelligent Fire Solutions, Including DynamixSmoke Solution, At Intersec 2020

Published on 10 Dec 2019

Fire safety solutions expert and fire protection equipment firm, Advanced has announced that it will be showcasing its latest versatile range of fire protection solutions at Intersec 2020 in Dubai, United Arab Emirates.

Advanced will be exhibiting its state-of-the-art fire safety products at F24 stall in Hall 4 of the Dubai International Convention and Exhibition Centre in Dubai, UAE. Visitors will discover the full spectrum of fire safety solutions offered by Advanced's Axis EN and Axis AX fire

systems. They can also see why its powerful features – including unrivalled networking capability, false alarm management and easy-program cause and effect – make it a trusted choice for the tallest to the smallest buildings around the globe.

DynamixSmoke solution

Advanced will also be demonstrating the company's award-winning DynamixSmoke solution

Advanced will also be demonstrating the company's award-winning DynamixSmoke solution, which radically simplifies smoke control configuration. Thanks to its innovative, easy-to-use matrix programming, DynamixSmoke ensures measurable time and cost savings.

The company's 'gold standard' redundant fire panels will also be showcased at the Intersec event in Dubai. These high-tech fire panels automatically protect users from system downtime to ensure total peace of mind whenever faults or power outages occur.

Intersec Dubai 2020

Steve Carroll, General Manager for Advanced in the Middle East region, said: *"Intersec is a highlight of our company, Advanced's exhibition calendar. It offers us the opportunity to spend time with new customers and valued partners introducing our latest products and features designed for the Middle East, Africa, and Indian subcontinent and beyond"*.

Steve further says, *"We've built a reputation for developing products that offer unrivalled levels of performance, quality and ease of use. We're looking forward to discussing how these benefits of Advanced's systems can help solve our visitors' fire protection challenges!"*
