

Streamlight Launches Rechargeable Waypoint 300 With Enhanced Down-Range Lighting

Published on 13 Feb 2020

Streamlight, Inc., a provider of high-performance lighting, launched the Waypoint 300, a rechargeable high lumen, pistol grip spotlight with enhanced down-range lighting capability. Featuring 270,000 candela, a 1,039-meter beam distance, and 1,000 lumens on high, the Waypoint 300's powerful long-range targeting beam is portable and runs for 3.75 to 87 hours on high, medium, low, respectively.

handheld mobile searchlight

"The Waypoint 300 not only features extreme brightness, but also includes a beam that reaches

said Streamlight Vice President, Sales and Marketing, Michael F. Dineen. *"It can be used as either a handheld mobile searchlight, or, with its integrated stand, as a hands-free scene light to illuminate a scene. It's the ideal spotlight for boating, camping and other outdoor pursuits, as well as for first responder and law enforcement applications."*

The rugged Waypoint 300 features an unbreakable polycarbonate lens and is O-ring sealed"

The Waypoint 300 uses power LED technology and a deep-dish parabolic reflector for long-range targeting with optimum peripheral illumination. On the medium setting, the light offers 550 lumens, 135,000 candela, and a 735-meter beam distance. On low, the light provides 35 lumens and 10,000 candela, with a beam distance of 200 meters. The new light uses a rechargeable lithium ion battery that fully charges in four hours. A convenient LED charging indicator provides charging status.

unbreakable polycarbonate lens

The rugged Waypoint 300 features an unbreakable polycarbonate lens and is O-ring sealed. With a trigger-style switch for momentary or click on/off operation, the light boasts a cushioned handle grip that eliminates user hand fatigue. The light includes an adjustable, high-strength wrist lanyard, and features an integrated stand for hands-free lighting.

The lightweight Waypoint 300 weighs 1.52 pounds and measures 6.75 inches long by 7.14 inches high. It features an IPX8-rated design for waterproof operation to two meters, and is

impact-resistant to one meter.
