Viking Electronics' K-1900-812L-IP panel phone is durable, easy to use, and provides added strength to hold up under heavy abuse.

*"The shortened, reinforced armored cable increases safety for users and helps to discourage potential vandalism."* – James Catt, Engineer, Viking Electronics

**K-1900-812L-IP VoIP panel phone**

The K-1900-812L-IP vandal resistant VoIP SIP panel phone comes equipped with a 12-inch armored handset cable to reduce the risk of users harming themselves or their surroundings. The armored handset cable is reinforced with an internal steel lanyard to withstand abuse from users pulling and tugging on the handset.

Key features include a vandal resistant handset and cable, vandal resistant keypad, and durable steel faceplate. Viking's Enhanced Weather Protection option is available for added protection against environmental factors. Each K-1900-812L-IP phone can be used as a manual dial VoIP SIP phone, a hot-line phone that dials a single phone number when the handset is lifted, or can store up to 250 speed dial numbers accessed from the phone's keypad.

## **Integration with security cameras**

Two onboard relays can be programmed to activate when the phone is in use or a correct touch tone code is entered, triggering security cameras, lighting, or any other device activated by a contact trigger. The K-1900-812L-IP is PoE powered and compatible with a wide array of VoIP SIP phone systems.

Viking Electronics designs and manufactures over 500 communication and security

products, including VoIP and analog emergency phones, entry systems, paging interfaces, paging amplifiers, mass notification systems, hot line products, and enclosures. Many Viking products are designed to fix or add unique features to telephone or security applications, keeping costs down while maintaining ease of use.
