

Fire Lite Alarms (Honeywell) 5602 mechanical heat detector

Technical Specification

| | | |
|-------------------|------------------------------|--|
| Make | Fire Lite Alarms (Honeywell) |  |
| Company | Fire Lite Alarms (Honeywell) | |
| Model code | 5602 | |
| Type | Heat | |

Additional info

Fire Lite Alarms (Honeywell) 5602 mechanical heat detector offers a low-cost option for property protection against fire and for non-life safety installations, where smoke detectors are inappropriate. The detector is a single circuit model with fixed-temperature/rate-of-rise activation. It provides clear markings on the exterior of the unit to ensure that proper detector is being used. Once the detector has been activated, the collector drops from the unit to allow easy identification of the specific unit in alarm.
