

Hochiki America ACC-V analogue multi-criteria sensor

Technical Specification

Make	Hochiki America
Company	Hochiki America Corporation
Model code	ACC-V
Type	Smoke

**Additional
info**

The Hochiki America ACC-V Multi-Criteria Sensor is particularly suited for detecting smoke produced by a wide range of combustibles found in various applications. Temperature monitoring is achieved by a thermistor placed for optimum sensitivity. Hochiki's unique design allows fast response to flaming fires as well as smoldering fires while minimising false alarms.
